

Trader's Edge MVP Scope & Monetization Plan

Product Vision

Trader's Edge is a discipline and mindset operating system for traders.

It is designed to help traders:

- Protect capital
- Follow their plan
- Reduce emotional decision-making
- Build consistency
- Improve discipline over time

Trader's Edge is not:

- A broker
- A signal service
- A charting platform
- A trade copier
- A trading journal focused on P&L

The product focuses on behavior, process, and execution quality.

Success is measured by discipline, not profits.

Core Product Promise

Every trading day begins with a mission.

Every trading session is monitored through mindset and discipline.

Every trading day ends with reflection and intelligence.

The goal is to help traders become more disciplined operators over time.

V1 MVP Scope

Included In V1

Mission System

Pro Tier

Operator Intelligence

The paid version exists to help traders improve over time.

Users receive:

- Mission Debrief
- Discipline Score
- Behavior Grade
- Mission Results
- Progress Dashboard
- Full Vault Access
- Mission Archive
- Mission Reports
- Rank Progression
- Behavioral Classification
- Intelligence Reports
- Threat Analysis
- Strength Analysis
- Weekly Intelligence Reports
- Historical Insights
- Advanced Mission Active Dashboard
- Custom Mission Templates

Upgrade Philosophy

The free version answers:

"Can Trader's Edge help me stay disciplined today?"

The paid version answers:

"Can Trader's Edge help me become a more disciplined trader over time?"

The paywall should never block the core experience.

The paywall should unlock intelligence, analysis, history, and growth.

Proposed Pricing

Monthly

\$7.99/month

Annual

\$59.99/year

(37% savings)

Founding Lifetime

\$79.99

Limited launch offer.

Early adopters receive all future Trader's Edge Pro features.

Core Conversion Moment

The primary upgrade trigger occurs after a mission ends.

Free users see:

MISSION COMPLETE

Your session has been archived.

Unlock Operator Intelligence to discover:

- Discipline Score
- Behavior Grade
- Biggest Threat
- Strongest Trait
- Weekly Reports
- Rank Progression

[Unlock Pro]

The user should become curious about their own behavior.

That curiosity drives conversion.
