

Trader's Edge Master Development Roadmap

Version 1.0 Launch Roadmap

This roadmap reflects the finalized product vision, monetization strategy, intelligence system architecture, and screen designs.

The goal is to launch the first discipline operating system built specifically for traders.

Phase 0 — Product Foundation

Epic 0: Localization & Internationalization (i18n)

Goal

Future-proof Trader's Edge for global expansion.

Implement localization before any screens are built.

Tasks

Localization Framework

- [] Install i18next
- [] Install expo-localization
- [] Configure language provider
- [] Configure fallback language

Translation Architecture

- [] Create translation folders
- [] Create common.json
- [] Create mission.json
- [] Create debrief.json
- [] Create progress.json
- [] Create vault.json
- [] Create profile.json
- [] Create notifications.json

Date & Time

- [] 12-hour support
- [] 24-hour support

- ☐ Locale-aware formatting

Number Formatting

- ☐ Percent formatting
- ☐ Locale support

Future Support

- ☐ RTL-ready architecture
-

Phase 1 — Core Infrastructure

Epic 1: Authentication & User Management

Goal

Create operator accounts.

Tasks

Authentication

- ☐ Firebase setup
- ☐ Authentication setup
- ☐ Email/password login
- ☐ Password reset
- ☐ Session persistence

User Model

- ☐ User collection
 - ☐ Callsign field
 - ☐ Operator Motto field
 - ☐ Rank field
 - ☐ Classification field
-

Epic 2: Database Architecture

Goal

Create all core collections.

Collections

- [] Users
- [] Missions
- [] Mindset Check-ins
- [] Session Notes
- [] Mission Debriefs
- [] Discipline Scores
- [] Notification Preferences

Backend

- [] Security rules
 - [] Firestore indexes
 - [] Cloud Functions setup
-

Phase 2 — Mission System (FREE TIER)

Epic 3: Mission Creation System

Goal

Allow users to create missions.

Tasks

Mission Setup

- [] Objective selection
- [] Threat selection
- [] Core focus selection
- [] Session selection
- [] Mission preview
- [] Start Mission

Mission Templates

- [] Default templates
-

Epic 4: Readiness Engine

Goal

Assess mindset before trading.

Tasks

Pre-Session Check-In

- ☐ Confidence
- ☐ Patience
- ☐ Focus

Status Engine

- ☐ On Track
 - ☐ Caution
 - ☐ High Risk
 - ☐ Locked In
-

Epic 5: Mission Active Lite

Goal

Provide daily discipline support.

Free Features

- ☐ Objective card
 - ☐ Threat display
 - ☐ Core focus display
 - ☐ Mission status
 - ☐ Session timer
 - ☐ Update mindset
 - ☐ Session notes
-

Epic 6: Notification Engine

Goal

Power mission coaching.

Tasks

Alerts

- ☐ Mission Start
- ☐ Mid-Session Check-In
- ☐ Mission Complete
- ☐ Debrief Reminder

Behavioral Alerts

- ☐ Caution
- ☐ High Risk
- ☐ Locked In

Controls

- ☐ Notification settings
 - ☐ Quiet hours
-

Epic 7: Lock Screen Live Activities

Goal

Keep mission visible while trading.

States

- ☐ Mission Briefing
- ☐ Mission Active
- ☐ Caution
- ☐ High Risk
- ☐ Locked In
- ☐ Mission Complete

Features

- ☐ Deep linking
 - ☐ Live updates
-

Epic 8: Dynamic Island / Nook

Goal

Glanceable mission awareness.

States

Compact

- ☐ Focus
- ☐ Status

Expanded

- ☐ Objective
- ☐ Remaining session
- ☐ Status

Alert States

- ☐ Caution
- ☐ High Risk
- ☐ Locked In

Mission Complete

- ☐ Debrief shortcut

Phase 3 — Intelligence System (PRO TIER)

Epic 9: Mission Debrief

Goal

Convert sessions into intelligence.

Tasks

Traded Flow

- ☐ Execution checklist
- ☐ Emotional control
- ☐ Exit reason
- ☐ Lesson capture
- ☐ Self-assessment

No Trade Flow

- ☐ No-trade questions
- ☐ No-trade scoring

Epic 10: Discipline Engine

Goal

Calculate discipline score.

Components

- ☐ Execution Integrity
- ☐ Risk Discipline
- ☐ Emotional Control
- ☐ Mission Adherence
- ☐ Self Awareness

Outputs

- ☐ Discipline Score
 - ☐ Grade
 - ☐ Session Classification
-

Epic 11: Mission Results Experience

Goal

Deliver immediate feedback.

Tasks

- ☐ Results modal
- ☐ Grade display
- ☐ Strongest trait
- ☐ Improvement area
- ☐ Lesson captured
- ☐ Rank progress

Monetization

- ☐ Free-to-Pro upgrade prompt
-

Phase 4 — Growth Intelligence (PRO TIER)

Epic 12: Progress Center

Goal

Visualize trader improvement.

Features

Performance

- [] Discipline trend
- [] Streak tracking
- [] Mission completion
- [] Success rate

Insights

- [] Threat analysis
- [] Strength analysis
- [] Improvement area

Rank Progress

- [] Current rank
 - [] Next rank
 - [] Progress %
-

Epic 13: Rank Progression System

Goal

Create long-term progression.

Ranks

- [] Recruit
- [] Operator
- [] Senior Operator
- [] Elite Operator
- [] Special Agent
- [] Director

Logic

- [] Rank calculations
 - [] Promotion engine
 - [] Progress engine
-

Epic 14: Behavioral Classification Engine

Goal

Define trader identity.

Classifications

- ☐ Discipline First Trader
- ☐ Capital Preserver
- ☐ Patience Specialist
- ☐ Risk Controller
- ☐ Execution Focused
- ☐ Consistency Builder
- ☐ Recovery Operator
- ☐ Caution Profile

Tasks

- ☐ Classification calculations
 - ☐ Profile integration
 - ☐ Report integration
-

Phase 5 — Intelligence Archive (PRO TIER)

Epic 15: Vault

Goal

Store trader intelligence.

Features

Mission Archive

- ☐ Search
- ☐ Filters
- ☐ Reports

Session Notes

- ☐ Archive
- ☐ Search

Intelligence Reports

- [] Weekly reports
 - [] Behavioral reports
 - [] Insight cards
-

Epic 16: Mission Report System

Goal

Generate mission dossiers.

Features

- [] Mission Report screen
 - [] Session summary
 - [] Threat review
 - [] Grade breakdown
 - [] Lesson archive
-

Phase 6 — Identity & Configuration

Epic 17: Operator Dossier

Goal

Build trader identity.

Features

- [] Callsign
 - [] Motto
 - [] Rank
 - [] Classification
 - [] Mission preferences
 - [] Statistics
-

Epic 18: Alerts Command Center

Goal

Manage coaching systems.

Features

- [] Behavioral alerts
 - [] Mission alerts
 - [] Intelligence reports
 - [] Live Activities
 - [] Nook controls
 - [] Coaching style
 - [] Quiet hours
-

Phase 7 — Monetization

Epic 19: Subscription System

Free Tier

Mission Mode

Includes:

- [] Mission Setup
- [] Mission Active Lite
- [] Mid-session Check-ins
- [] Lock Screen Briefings
- [] Dynamic Island / Nook
- [] Session Notes
- [] Mission Status

Pro Tier

Operator Intelligence

Includes:

- [] Mission Debrief
- [] Discipline Score
- [] Results
- [] Progress
- [] Vault
- [] Rank Progression
- [] Behavioral Classification
- [] Weekly Reports
- [] Mission Archive
- [] Intelligence Reports

Tasks

- ☐ RevenueCat integration
 - ☐ Subscription management
 - ☐ Restore purchases
 - ☐ Paywall screens
 - ☐ Upgrade prompts
-

Phase 8 — Launch Preparation

Epic 20: QA & Testing

Functional Testing

- ☐ Mission flow
- ☐ Debrief flow
- ☐ Scoring engine
- ☐ Rank engine
- ☐ Classification engine

Notification Testing

- ☐ Lock Screen
 - ☐ Nook
 - ☐ Behavioral alerts
 - ☐ Quiet hours
-

Epic 21: App Store Launch

Assets

- ☐ App icon
- ☐ Screenshots
- ☐ Promo video

Store Listing

- ☐ Description
- ☐ Keywords
- ☐ Metadata

Marketing

- ☐ Landing page

- [] Waitlist
 - [] TikTok content
 - [] Reddit launch strategy
-

MVP Completion Criteria

Trader's Edge V1 is complete when a trader can:

Create Mission → Start Session → Receive Coaching → Use Lock Screen / Nook → Complete Debrief →
Receive Discipline Score → Track Progress → Build Intelligence → Upgrade To Pro

At that point, Trader's Edge successfully delivers its core promise:

"A discipline and mindset operating system for traders."
